Question 1

Question Type: MultipleChoice

Which is a capability of Web Form rules?

Options:

- A- altering execution of an unbounded ADF task flow
- B- inserting validation rules into an ADF page that a BPM Studio wizard has generated
- C- encoding-business policies that can be easily modified by end users at run time
- D- populating a dynamic drop-down list by accessing a RESTful service

Answer:

D

Question 2

Question Type: MultipleChoice

Which statement is an unsupported scenario for virtualization through libOVD?

Options:

- A- Dynamic groups used to determine group membership.
- B- Users and groups used for task assignment are stored in a relational database.
- C- Users and groups used for task assignment are stored in an external LDAP server or the embedded LDAP server.
- D- Users and groups used for task assignment are stored in multiple external LDAP servers.

Answer:

C

Question 3

Question Type: MultipleChoice

Which two statements are true about verbal rules and business phrases? (Choose two.)

Options:

- A- You can create a verbal rule with business phrases as a column in a decision table rule.
- B- Derived business phrases are automatically created by using facts, globals, and other information in the rules dictionary.
- C- User-defined business phrases can be explicitly authored to augment derived phrases.
- D- You can mark a verbal rule as draft in the Rules Editor.

Answer:

B, C

Explanation:

Derived business phrases are automatically created using facts, globals and other information in the dictionary while user-defined phrases can be explicitly authored to augment derived phrases.

Question 4

Question Type: MultipleChoice

By default, which two tasks participant roles can change the outcome of a task? (Choose two.)

Options:

- A- Admin
- B- Approvers
- C- Assignees
- D- Creator
- E- Owner
- F- Reviewer

Answer:

C, E

Explanation:

The task owner can change both the outcome of the task and the assignments.

The assignee can raise questions about the work, by adding comments into the task to communicate to the owner or followers about their progress. For example, if an assignee cannot complete the task, they can either change the assignee back to the owner, or add a comment into the task while changing the task status to "need assistance".

Question 5

Question Type: MultipleChoice

Which two components in a BPM project can be promoted to become a case activity? (Choose two.)

Options:

- A- Mediator
- B- BPEL
- C- Human task
- D- Business rule
- E- BPMN
- F- Spring

Answer:

C, E

Explanation:

A case definition contains various case activities that represent the different work that the user can perform in the context of a case. Oracle BPM allows you to define case activities based on:

- a Human Task
- a BPMN process

http://docs.oracle.com/cd/E28280_01/doc.1111/e15176/case_mgmt_bpmpd.htm#BPMPD87410

Question 6

Question Type: MultipleChoice

To establish the integration between BPM Suite and BAM 12c, you need to _____.

Options:

- A-** do nothing as they are integrated out-of-the-box
- B-** set the DisableProcessMetricsMBean setting to false on the SOA server

C- set the DisableProcessMetricsMBean setting to false on the BAM server

D- set the DisableMonitorExpressMBean setting to false on the SOA server

Answer:

B
