- C- Enable download randomization in the client group's communication settings
- D- Create a Firewall allow rule for the server's IP address.

**Answer:**

---

A

## Question 8

---

**Question Type: MultipleChoice**

---

A company plans to install six Symantec Endpoint Protection Managers (SEPMs) spread evenly across two sites. The administrator needs to direct replication activity to SEPM3 server in Site 1 and SEPM4 in Site 2.

Which two actions should the administrator take to direct replication activity to SEPM3 and SEPM4? (Select two.)

**Options:**

---

- A- Install the SQL Server databases on SEPM3 and SEPM4
- B- Ensure SEPM3 and SEPM4 are in the same time zone
- C- Ensure SEPM3 and SEPM4 are defined as remote servers in the replication partner configuration

**D-** Install SEPM3 and SEPM4 after the other SEPMs

**E-** Ensure SEPM3 and SEPM4 are defined as the top priority server in in the Site Settings

**Answer:**

---

C, E

## Question 9

---

**Question Type: MultipleChoice**

---

Catastrophic hardware failure has occurred on a single Symantec Endpoint Protection Manager (SEPM) in an environment with two SEPMs.

What is the quickest way an administrator can restore the environment to its original state?

**Options:**

---

**A-** Install a new SEPM into the existing site

**B-** Reinstall the entire SEPM environment

**C-** Clone the still functioning SEPM and change the server.properties file

**D-** Build a new site and configure replication with the still functioning SEPM

**Answer:**

---

A

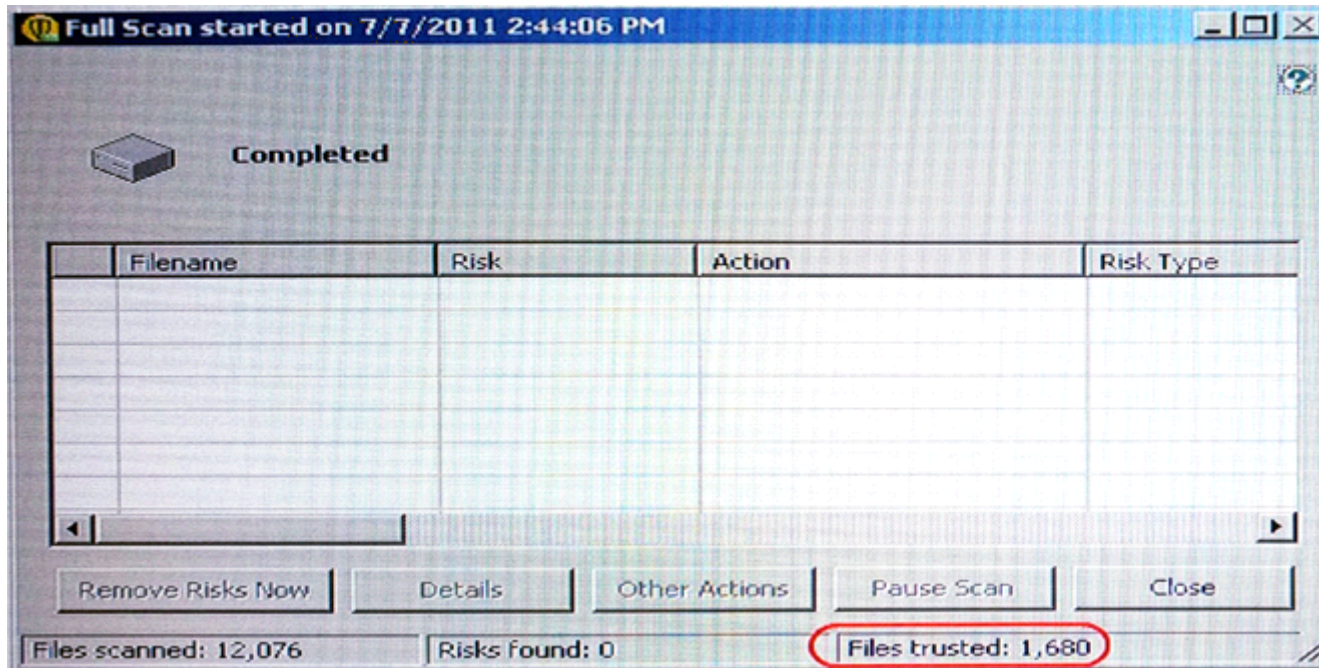

## **Question 10**

---

**Question Type: MultipleChoice**

---

Which settings can impact the Files trusted count?

### Options:

---

- A- System Lockdown Whitelist in the Application and Device Control Policy
- B- File Cache settings in the Virus and Spyware Protection policy
