Question 1

Question Type: MultipleChoice

Which two business impacts do Cisco collaborative technologies bring to employee innovation? (Choose two.)

Options:

- A- eliminating complexity and controlling costs
- B- increasing time to market
- C- enabling disparate teams to work together to solve problems
- D- eliminating sales cycle time
- E- enhancing communications with strategic partners and suppliers

Answer:

A, E

Question 2

Question Type: MultipleChoice

In which two ways does Cisco Business Edition 6000 deployment mitigate and reduce business risk? (Choose two.)

Options:

- A-** Cisco proprietary communications protocols mitigate the risk of interoperability with other collaboration devices from other vendors.
- B-** Cisco Collaboration architecture supports all major operating systems and devices, which minimizes the risk of a device not being supported
- C-** Cisco Jabber uses a consistent user interface on all devices. Change of devices does not impact user acceptance.
- D-** End-to-end, the Cisco Collaboration solution eliminates the risk that the applications and devices of other vendors will not be supported.

Answer:

B, C

Question 3

Question Type: MultipleChoice

Which description of the Cisco Collaboration architecture is true'?

Options:

- A-** a flexible network framework designed to enable integration with the collaboration requirements of the customer
- B-** a flexible collaboration framework designed to support any customer and any user collaboration needs
- C-** a collaboration framework designed to support the collaboration needs of a typical large enterprise
- D-** a collaboration framework designed to integrate the existing customer collaboration functionalities with Cisco network infrastructure

Answer:

A

Question 4

Question Type: MultipleChoice

- D- people working together to reach a common goal

Answer:

A

Question 6

Question Type: MultipleChoice

Which two statements about Cisco Validated Designs and Smart Business Architectures are true? (Choose two.)

Options:

- A-** Cisco Validated Designs provide proven design of solutions that include only Cisco products and thus ensure single-vendor solutions.
- B-** Cisco Validated Designs are end-to-end designs that are well-tested and fully documented.
- C-** Smart Business Architecture guides are available for enterprise-sized deployments only.
- D-** Smart Business Architecture is a blueprint for delivering the three Cisco architectures in a modular approach.

Answer:

B, D

Question 7

Question Type: MultipleChoice

Which option describes the endpoints that are supported on applications that are included under the Cisco Business Edition 6000 umbrella?

Options:

- A- all Cisco voice and video endpoints except Cisco Telepresence room systems
- B- all Cisco voice and video endpoints except Cisco Telepresence EX Series and Cisco Telepresence room systems
- C- all Cisco voice and video endpoints except IEEE 802.11 Wi-Fi endpoints
- D- all Cisco voice and video endpoints

Answer:

D

Question 8

Question Type: MultipleChoice

Which statement allows you to position the topic of collaboration meeting rooms with the customer?

Options:

- A-** Cisco Collaboration Meeting Rooms is a validated design that defines the layout design, and technical requirements of Cisco Telepresence Video rooms.
- B-** Cisco Collaboration Meeting Rooms is a video conferencing service. It couples WebEx Personal Rooms and the cloud-based WebEx Video Bridge into one, always-available meeting experience.
- C-** Cisco Collaboration Meeting Rooms represent the video capabilities of Cisco Business Edition 6000 that enable video from any device.
- D-** Cisco Collaboration Meeting Rooms is an on-premises service offering video to the enterprise across mobile, desktop, and room-based systems.

Answer:

B

Question 9

Question Type: MultipleChoice

Which statement describes the key function provided by Cisco Spark?
