Question 1

Question Type: MultipleChoice

Select the two factors which could help improve a percentage truck utilisation figure:

Options:

- A- Drivetrain electrification
- B- Improved fuel efficiency
- C- Backloading
- D- Dynamic routing

Answer:

C, D

Explanation:

Backloading (ie return loads) and dynamic routing (computer-controlled variable route scheduling) can help increase truck utilisation figures.

The technology already exists to radically improve performance in this area. 'Uber'-type technology - something with which many people will be familiar - can aid both these concepts.

(L3M6)

Question 2

Question Type: MultipleChoice

Which one of the following does not require Environmental Impact Assessment under UK legisla-tion?

Options:

- A- Major power-generating plants
- B- Waste disposal incinerator
- C- Chemical works
- D- Multi-screen cinema complex

Answer:

B

Explanation:

Multi-screen cinema complex.

Question 3

Question Type: MultipleChoice

What do the letters 'GRI' stand for?

Options:

- A- General Recycling Indicator
- B- Global Reporting Initiative
- C- Global Recycling Initiative
- D- General Reporting Indicator

Answer:

B

Explanation:

Global Reporting Initiative.

The GRI standards have been widely adopted for reporting on sustainability issues by many companies worldwide.

Question 4

Question Type: MultipleChoice

'Many XXX of creatures are becoming extinct, or are suffering steep decline in numbers. The diversity of XXX is necessary for the functioning of ecosystems, and in some cases endangered XXX contribute to the human food chain (eg honey bees)...'

Options:

A- Animals

B- Species

C- Fauna

D- Varieties

Answer:

B

Explanation:

The word which fits best is 'species'.

Question 5

Question Type: MultipleChoice

'A concept whereby companies integrate social and environmental concerns in their business operations and in their interaction with their stakeholders on a voluntary basis'. What is the European Commission defining here?

Options:

- A- Environmentalism
- B- Corporate Social Responsibility
- C- Corporate Governance
- D- Sustainability

Answer:

B

Explanation:

The combination of environmental and social concerns, with business, immediately implies CSR.

Question 6

Question Type: MultipleChoice

The traditional (ie non-environmentally friendly) manufacturing model has been described as:

Options:

- A- Grab, build and burn
- B- Source, manufacture and bury
- C- Take, make and dispose
- D- Procure, produce and waste

Answer:

C

Explanation:

'Take, make and dispose' is the correct answer.

An uncomfortable yet accurate description of human behaviour in the developed world over the last century or more.

Question 7

Question Type: MultipleChoice

UNFCCC negotiations led to which agreement in 2015, on the subject of limiting the extent of global warming? Countries agreed, in those discussions, to limit their emissions by 2030.

Options:

- A- Berlin Agreement
- B- Brussels Agreement
- C- Paris Agreement
- D- Amsterdam Agreement

Answer:

C

Explanation:

Paris, 2015

Question 8

Question Type: MultipleChoice

Complete this phrase. 'The use of the...'

Options:

A- Rube

B- Lube

C- Tube

D- Cube

Answer:

D

Explanation:

Cube.

Indicating that people, unless made consciously aware, tend to under-use the dimension of height, using depth and breadth readily. For illustrations, check aerial photographs of many US cities (sprawl), or check the inside of your fridge. In warehousing and storage, such an approach can be a very costly error - so 'maximise use of the cube'.

Question 9

Question Type: MultipleChoice

Herman E Daly, an ecological economist, wrote that 'there is something fundamentally wrong in treating XXXX as if it were a business in liquidation'. What is XXXX?

Options:

- A- The local environment
- B- CIPS
- C- The supply chain
- D- The Earth

Answer:

D

Explanation:

The correct answer is 'The Earth'.

In other words, we should stop plundering the Earth's resources carelessly.

Question 10

Question Type: MultipleChoice

One organisation has published a guide, as part of its Knowledge Summary series, which sets out requirements for ethical behaviour from suppliers. The guide is entitled 'Ethical business practices in purchasing and supply'. Which organisation published the guide?

Options:

A- CIPS

B- OECD

C- CILT

D- ISO

Answer:

B

Explanation:

The Chartered Institute of Procurement and Supply published this guide.

Question 11

Question Type: MultipleChoice

What is being described here: 'supply chain management practices and strategies that reduce the environment and energy footprint of freight distribution'?

Options:

- A- Green warehousing
- B- Green logistics
- C- Green procurement
- D- Green marketing

Answer:

B

Explanation:

Freight distribution gives us the clue that the correct answer is 'green logistics'.
