Question 1

Question Type: MultipleChoice

As the Earth's atmosphere warms, greenhouse gases (GHGs) prevent escape of the heat from the Earth. The heat is absorbed primarily by the Earth's:

Options:

- A- Forests
- B- Oceans
- C- Glaciers
- D- Mountains

Answer:

B

Explanation:

The Earth's oceans absorb most of the heat which is retained.

Question 2

Question Type: MultipleChoice

An approach to storage whereby items will be placed anywhere where there is free space, reducing the overall volume of space required in the warehouse.

Options:

- A- Lost and found
- B- Random location
- C- Free standing
- D- Fixed location
- E- Flexible location

Answer:

B

Explanation:

This is 'random location' storage, normally heavily monitored by a sophisticated computer system to help re-locate and potentially retrieve the items quickly.

The other answers offered are mostly 'random nonsense'.

(L3M6)

Question 3

Question Type: MultipleChoice

Which of the following could reasonably be included in an annual Corporate Social Responsibility report? Select all that apply.

Options:

- A-** Percentage of employees aged over 50 years
- B-** Fatal workplace accidents
- C-** Packaging materials used

D- Labour turnover

Answer:

A, B, C, D

Explanation:

All of these responses can be seen as issues within the general sphere of corporate social responsibility.

Question 4

Question Type: MultipleChoice

Which organisation was established in 1992 as a forum for international action on climate change?

Options:

A- MCC

- B- Fairtrade Foundation
- C- UNFCCC
- D- The Clinton Foundation

Answer:

C

Explanation:

UNFCCC.

United Nations Framework Convention on Climate Change.

I guess, having re-visited this QUESTION NO : in 2022, originally written in 2020, the 'CC' at the end of the possible answers, reduces the risk of people selecting a wrong answer.

Doesn't work for 'MCC' though as that stands for 'Marylebone Cricket Club' which was founded in 1787, and is 'the guardian of the laws of cricket'. (Source: MCC)

Question 5

Question Type: MultipleChoice

According to the World Health Organisation, which of the following does noise pollution contribute towards?

Select all that apply.

Options:

- A- Loss of hearing
- B- Heart disease
- C- Learning difficulties in children
- D- Sleep disturbance
- E- Stress and psychiatric disorders

Answer:

A, B, C, D, E

Explanation:

According to the WHO, all of these ailments are exacerbated by noise pollution.

Noise pollution is thus a serious issue for health.

Question 6

Question Type: MultipleChoice

'Whole life cost' can also be known as:

Options:

- A- Total cost of life
- B- Total leasing cost
- C- Total cost of ownership
- D- Total cost of renewables

Answer:

C

Explanation:

Whole life cost = total cost of ownership (TCO).

This is in contrast to the 'buy cheapest' approach to procurement - all the costs of owning an asset should be considered.

Question 7

Question Type: MultipleChoice

Which of the following should be given consideration as part of a 'whole life approach' to sustainable procurement decisions? Select all that apply.

Options:

- A- Manufacturing methods
- B- Product design
- C- Re-use and recycling options
- D- End of life disposal

Answer:

A, B, C, D

Explanation:

All of the above.

All four answers can contribute towards sustainable procurement decisions.

Question 8

Question Type: MultipleChoice

The acronym, 'EIA' represents:

Options:

- A- Environmental Impact Assessment
- B- Environmental Intrusion Analysis
- C- Early Involvement of Atmospheric Analysis
- D- Environmental Interest Assessment

Answer:

A

Explanation:

Environmental Impact Assessment.

An assessment of the overall impact on the environment.

Question 9

Question Type: MultipleChoice

Which is the ISO standard for Environmental Management Systems?

Options:

A- ISO 9001

B- SA 8000

C- ISO 20400

D- ISO 14001

Answer:

C

Explanation:

ISO 14001 is the ISO standard for Environmental Management Systems.
