Refer to the exhibit. Match the Fault Icons to the appropriate description.

Problems exist with one or more components that might adversely affect system performance. These issues should be researched and fixed as soon as possible before they become major or critical issues.

Answer:

Potential problems exist with one or more components that might adversely affect system performance if they are allowed to continue. These issues should be researched and fixed as soon as possible before the problem grows worse.

Explanation:

https://www.cisco.com/en/US/docs/unified_computing/ucs/sw/gui/config/guide/141/UCSM_GUI_Configuration_Guide_141_chapter3.html

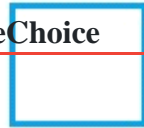

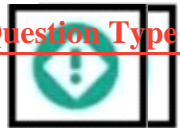

https://www.cisco.com/en/US/docs/unified_computing/ucs/sw/gui/config/guide/141/UCSM_GUI_Configuration_Guide_141_chapter3.html

Critical problems exist with one or more components. These issues should be researched and fixed immediately.

Question 4

Question Type: MultipleChoice

Serious problems exist with one or more components. These issues should be researched and fixed immediately.

Which tool is needed when servicing a UCS M5 server?

Options:

- A- PCIe slot cover
- B- T-30 Torx driver
- C- M5 DIMM puller
- D- HDD removal tool

Answer:

B

Explanation:

https://www.cisco.com/c/en/us/td/docs/unified_computing/ucs/c/hw/C220M5/install/C220M5/C220M5_chapter_010.html

Question 5

Question Type: MultipleChoice

What is the name of the process to automatically upgrade a new Fabric Interconnect when it is connected to the functioning Fabric Interconnect?

Options:

- A- Firmware Policy Process
- B- Auto-Negotiate Process
- C- Auto-Sync Process
- D- Firmware Update Process

Answer:

D

Question 6

Question Type: MultipleChoice

Which two virtualization technologies are used in a modern data center design? (Choose two.)

Options:

- A- Storage virtualization

- B- Cloud virtualization
- C- Platform virtualization
- D- Server virtualization
- E- Application virtualization

Answer:

C, D

Question 7

Question Type: MultipleChoice

In the Cisco UCS S3260 Storage Server which two of the below ports are available on a System I/O Controller? (Choose two.)

Options:

- A- Dedicated Management port
- B- PCIe ports

C- KVM Console port

D- QSFP port

E- Ethernet LOM port

Answer:

B, D

Explanation:
