Question 1

Question Type: MultipleChoice

Which physical component is distributed among multiple virtual machines running on the same hypervisor?

Options:

- A- external storage
- B- hardware resources
- C- network interfaces
- D- backplane network

Answer:

B

Explanation:

Topic 5, Simulations / Lab

Question 2

Question Type: MultipleChoice

Refer to the exhibit.

```
Cat9300# show cdp
Global CDP information:
  Sending CDP packets every 60 seconds
  Sending a holdtime value of 180 seconds
  Sending CDPv2 advertisements is enabled
```

Which action must be taken so that neighboring devices rapidly discover switch Cat9300?

Options:

- A- Configure the cdp timer 10 command on switch Cat9300.
- B- Enable portfast on the ports that connect to neighboring devices.
- C- Configure the cdp holdtime 10 command on switch Cat9300.
- D- Configure the cdp timer 10 command on the neighbors of switch Cat9300.

Answer:

A

Question 3

Question Type: MultipleChoice

Which EtherChannel mode must be configured when using LAG on a WLC?

Options:

A- on

B- active

C- auto

D- passive

Answer:

A

Question 4

Question Type: MultipleChoice

A network engineer starts to implement a new wireless LAN by configuring the authentication server and creating the dynamic Interface. What must be performed next to complete the basic configuration?

Options:

- A- Install the management interface and add the management IP.
- B- Configure high availability and redundancy for the access points.
- C- Enable Telnet and RADIUS access on the management interface.
- D- Create the new WLAN and bind the dynamic interface to it.

Answer:

D

Question 5

Question Type: MultipleChoice

Refer to the exhibit.

```
{
  "Cisco Devices": [
    {
      "name": "ASA - Security Device",
      "name": "Cisco 1100 ASR Router",
      "name": "Cisco 6800 Switch"
    }
  ]
}
```

What is missing from this output for it to be executed?

Options:

- A- double quotes C') around the 'Cisco Devices' string
- B- curly brace (}) at the end
- C- exclamation point (!) at the beginning of each line
- D- square bracket (]) at the beginning

Answer:

B

Question 6

Question Type: MultipleChoice

Which group of channels in the 802.11b/g/n/ac/ax 2.4 GHz frequency Bands are nonoverlapping channels?

Options:

A- channels 1, 5, and 10

B- channels 1,6, and 11

C- channels 1,5, and 11

D- channels 1,6, and 10

Answer:

B

Question 7

Question Type: MultipleChoice

Which action must be taken when password protection is Implemented?

Options:

- A- Use less than eight characters in length when passwords are complex.
- B- Store passwords as contacts on a mobile device with single-factor authentication.
- C- Include special characters and make passwords as long as allowed.
- D- Share passwords with senior IT management to ensure proper oversight.

Answer:

A

Question 8

Question Type: MultipleChoice

What are two reasons to configure PortFast on a switch port attached to an end host? (Choose two.)

Options:

- A- to enable the number of MAC addresses learned on the port to I

- B-** to protect the operation of the port from topology change processes
- C-** to enable the pod to enter the forwarding state immediately when the host boots up
- D-** to prevent the port from participating in Spanning Tree Protocol operations
- E-** to block another switch or host from communicating through the port

Answer:

B, C

Question 9

Question Type: MultipleChoice

What does traffic shaping do?

Options:

- A-** It modifies the QoS attributes of a packet
- B-** It queues excess traffic
- C-** It organizes traffic into classes.

D- It sets QoS attributes within a packet.

Answer:

A
