Explanation:

<https://www.cisco.com/c/en/us/products/routers/wan-automation-engine/index.html>

Question 5

Question Type: DragDrop

Drag and drop the steps from the left into the correct order on the right to deploy an already created service into NSO. Not all options are used.

Log in to NSO CLI.

Verify that the service has been properly loaded with "show packages package oper-status" command.

Answer:

Perform a "services reload" command.

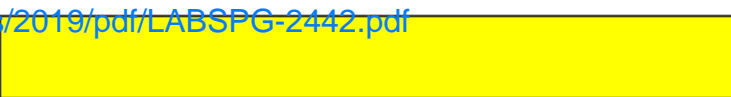

Explanation:

Move the service into \$NCS_DIR/packages directory.

Perform a "packages reload" command.

Move the service into \$NCS_PACKAGES directory..

Run "make clean all" inside the service "src" directory.

Verify that the service has been properly loaded with "show services service service-version" command.
