Question 1

Question Type: MultipleChoice

Which statement is true regarding VMware Cloud Director App Launchpad?

Options:

- A-** It only provides a pre-packaged public catalog that allows Service Providers the ability to pre-configure sizing templates for application deployment, simplifying the tenant experience.
- B-** It only provides pre-packaged, publicly available applications from the VMware Marketplace that must be configured every time they are deployed.
- C-** It provides a pre-packaged public and custom application catalog that allows Service Providers the ability to pre-configure sizing templates for application deployment, simplifying the tenant experience.
- D-** It provides both pre-packaged, publicly available applications from the VMware Marketplace as well as custom-build applications, but the properties must be configured by the tenant every time they want to deploy one.

Answer:

C

Explanation:

Question 2

Question Type: MultipleChoice

A customer requires VM encryption.

Which action must be taken to provide this feature?

Options:

- A-** Upgrade the vCenter Server to at least version 7.0.
- B-** Encrypt the VM directly from vCenter Server, as it is transparent to VMware Cloud Director.
- C-** In the vCenter Server, add a KMS > enable encryption policy > in VMware Cloud Director, add policy to Provide VDC > add policy to Organization VDC.
- D-** Add a KMS to VMware Cloud Director > create encryption policy > add policy to Organization VDC.

Answer:

B

Explanation:

<https://docs.vmware.com/en/VMware-Cloud-Director/10.3/VMware-Cloud-Director-Service-Provider-Admin-Portal-Guide/GUID-BCF6A4CD-6753-42B9-B160-967EBC0F124B.html#GUID-BCF6A4CD-6753-42B9-B160-967EBC0F124B>

Question 3

Question Type: MultipleChoice

A system administrator has been tasked with creating a new network in preparation for onboarding a tenant with the following requirements:

- * Provides a fully routed networking topology
- * Advertises routes via BGP (Border Gateway Protocol)
- * Prevents additional edge gateways from connecting to the network
- * Allow virtual machines to connect to outside networks

Which network type will satisfy all of these requirements?

Options:

- A- Imported Network
- B- Isolated Network
- C- Direct Network
- D- Dedicated External Network

Answer:

D

Question 4

Question Type: MultipleChoice

What must a cloud provider administrator do to extend the number of ESXi hosts within a Provider VDC?

Options:

- A-** Add the ESXi hosts to the vSphere cluster that backs the provider VDC, and navigate to the Infrastructure Resources. Then, select Hosts, and click autodiscover.
- B-** Add the ESXi hosts to the vSphere cluster that backs the provider VDC.
- C-** Within Cloud Director, navigate to the Infrastructure Resources, select Hosts, and click add.
- D-** Add the ESXi hosts to the vSphere cluster that backs the provider VDC, and validate that the Cloud Director installs the proper VIBs.

Answer:

B

Question 5

Question Type: MultipleChoice

A tenant has requested to extend their Organization VDC network through a Layer 2 VPN. Which interface type is needed on the NSX for vSphere Edge Gateway to support this configuration?

Options:

A- Routed

B- Subinterface

C- Internal

D- Distributed

Answer:

B

Question 6

Question Type: MultipleChoice

Where can the organization administrator view collected network information on vRealize Operations Tenant App for VMware Cloud Director?

Options:

A- Virtual machines

B- Organization VDC

C- Organization

D- vApps

Answer:

A

Question 7

Question Type: MultipleChoice

Which NSX-T resource can be used to back a VMware Cloud Director External Network?

Options:

A- Edge Cluster

B- Network Segment

C- Tier-0 Logical Router

D- Tier-1 Logical Router

Answer:

C

Explanation:

<https://docs.vmware.com/en/VMware-Cloud-Director/10.0/com.vmware.vcloud.spportal.doc/GUID-B937681E-329C-42D4-99BD-FAFF2A0BDF4C.html>

Question 8

Question Type: MultipleChoice

A system administrator creates a common catalog to be used by all customers. For availability purposes, the catalog will be consumed by a different VMware Cloud Director instance in a different country.

Which catalog setting enables the catalog to be shared across VMware Cloud Director instances?

Options:

A- Published catalog

B- Subscribed catalog

C- Content library catalog

D- Shared catalog

Answer:

A

Explanation:

Allow users to publish catalogs to organizations OUTSIDE of this cloud.

Question 9

Question Type: MultipleChoice

Which three steps are required to enable east/west firewall in VMware Cloud Director Tenant Portal? (Choose three.)

Options:

- A- Click on Data Center Group and create a new Data Center Group
- B- Go to Edge Gateways and enable firewall on one of the Edge Gateways
- C- Go to Networking and enable Distributed Firewall for one of the Network inside the Network section
- D- Activate Distributed Firewall inside the Data Center Group
- E- Login to Customer Organization and go to Networking Section of Tenant Portal
- F- Enable the firewall in NSX-T

Answer:

A, C, D

Question 10

Question Type: MultipleChoice

The VMware Cloud Director administrator wants to make sure that the system is able to collect log bundles from all cells at once.

How should the administrator accomplish this goal?

Options:

- A-** Install vRealize Log Insight agent on each cell to redirect logs to a centralized location.
- B-** Configure a syslog server on each of the cells, and request the logs from the syslog server.
- C-** Map the log location on the primary cell to a shared folder on each of the other cells in the server group, ensuring they all have read/write rights on the primary.
- D-** Make sure the NFS server allows read-write access to the shared location by the root system account on each cell.

Answer:

D

Explanation:

For multiple cells and packages, use this command and syntax to collect all the log bundles. The command will place the bundle in the transfer directory and report the exact location: Running a Multi-Cell Log Collection will not collect the Java Thread Dump, if required, run a Single Log Collection from the required Cells. `/opt/vmware/vcloud-director/bin/vmware-vcd-support --all -m`
