Answer:

C

Question 7

Question Type: MultipleChoice

Why is compliance important for the reliability of the information?

Options:

- A-** Compliance is another word for reliability. So, if a company indicates that it is compliant, it means that the information is managed properly.
- B-** By meeting the legislative requirements and the regulations of both the government and internal management, an organization shows that it manages its information in a sound manner.
- C-** When an organization employs a standard such as the ISO/IEC 27002 and uses it everywhere, it is compliant and therefore it guarantees the reliability of its information.
- D-** When an organization is compliant, it meets the requirements of privacy legislation and, in doing so, protects the reliability of its information.

Answer:

B
