Options:
A- True
B- False
Answer:

Question 6

Question Type: MultipleChoice

A Belt gathered the following defect data for a trouser production line and wanted to assemble it into a Pareto Chart. The correct order from left to right in the chart would be:

Data:Cutting29

Forming43

Stitching17

Sealing51

Options:

- A- Sealing, Forming, Cutting, Stitching
- B- Cutting, Stitching, Sealing, Forming
- C- Stitching, Forming, Cutting, Sealing

Answer: A Question 7 Puestion Type: MultipleChoice The temperature of a liquid is being measured by a line operator. Which is least likely to be influenced by the instrument? Options: A- Recording the measurement B- Actual temperature of the liquid C- Calibration of the instrument D- Reading of the instrument Answer:	D- Forming, Cutting, Seali	ng, Stitching
Question 7 uestion Type: MultipleChoice The temperature of a liquid is being measured by a line operator. Which is least likely to be influenced by the instrument? Options: A- Recording the measurement B- Actual temperature of the liquid C- Calibration of the instrument D- Reading of the instrument		
Coptions: A- Recording the measurement B- Actual temperature of the liquid C- Calibration of the instrument D- Reading of the instrument	Answer:	
The temperature of a liquid is being measured by a line operator. Which is least likely to be influenced by the instrument? Options: A- Recording the measurement B- Actual temperature of the liquid C- Calibration of the instrument D- Reading of the instrument	A	
The temperature of a liquid is being measured by a line operator. Which is least likely to be influenced by the instrument? Options: A- Recording the measurement B- Actual temperature of the liquid C- Calibration of the instrument D- Reading of the instrument		
The temperature of a liquid is being measured by a line operator. Which is least likely to be influenced by the instrument? Options: A- Recording the measurement B- Actual temperature of the liquid C- Calibration of the instrument D- Reading of the instrument	Question 7	
The temperature of a liquid is being measured by a line operator. Which is least likely to be influenced by the instrument? Options: A- Recording the measurement B- Actual temperature of the liquid C- Calibration of the instrument D- Reading of the instrument	uestion Type: MultipleCho	ice
Options: A- Recording the measurement B- Actual temperature of the liquid C- Calibration of the instrument D- Reading of the instrument		
A- Recording the measurement B- Actual temperature of the liquid C- Calibration of the instrument D- Reading of the instrument	The temperature of a liqui	d is being measured by a line operator. Which is least likely to be influenced by the instrument?
A- Recording the measurement B- Actual temperature of the liquid C- Calibration of the instrument D- Reading of the instrument		
A- Recording the measurement B- Actual temperature of the liquid C- Calibration of the instrument D- Reading of the instrument		
A- Recording the measurement B- Actual temperature of the liquid C- Calibration of the instrument D- Reading of the instrument		
B- Actual temperature of the liquid C- Calibration of the instrument D- Reading of the instrument		
C- Calibration of the instrument D- Reading of the instrument	A- Recording the measure	ement
D- Reading of the instrument	B- Actual temperature of t	he liquid
	C- Calibration of the instru	iment
Answer:	D- Reading of the instrum	ent
Answer:		
	Answer:	
	Answer:	

Question 8

Question Type: MultipleChoice

Long-term Data represents all the variation that one can expect to experience from the output of the subject process.

Options:

A- True

B- False

Answer:

Α

Question 9

Question Type: MultipleChoice

Reasonable, Understandable,	equirements for a SIPOC we are urged to use the RUMBA approach which stands for
Treasonable, Onderstandable,	, Believable and Admicvable.
Options:	
A- Manageable
