What does long lifecycle mean for the majority of HP Engage platforms?

Options:

- A- Up to 3-year manufacturing + 3 years of service and spare parts
- B- Up to 3-year manufacturing + 5 years of service and spare parts
- C- Up to 5-year manufacturing + 3 years of service and spare parts
- D- Up to 5-year manufacturing + 5 years of service and spare parts

Answer:

D

Explanation:

For the majority of HP Engage platforms, a long lifecycle means:

* Up to 5-year manufacturing + 5 years of service and spare parts: Many HP Engage products, like the HP Engage Flex Pro and Pro C, feature a total lifecycle of 10 years. This includes a 5-year production life and 5 years of support and spare parts availability post-production life

Question 2

Question Type: MultipleChoice

Which platform does HP Engage Express leverage?

Options:

- A- HP Engage One
- B- HP Engage One Pro
- C- HP Engage Go
- D- HP Engage Flex Pro

Answer:

A

Explanation:

The HP Engage Express leverages the HP Engage One platform. The HP Engage One is known for its sleek design, reliability, and comprehensive feature set, making it an ideal foundation for the Engage Express solution.
