Question 1

Question Type: MultipleChoice

There are two descriptions about backups:

Description 1: You can use the data backed up on the tape for data recovery at any time, but you can only recover to the backup moment
Historical data, not the data at the time of failure.

Description 2: Using tape as the backup medium is the highest RTO backup method.

Options:

- A- description 1 is correct, description 2 is correct
- B- Description 1 is right, description 2 is wrong
- C- description 1 is wrong, description 2 is right
- D- Description 1 is wrong, description 2 is wrong

Answer:

A

Question 2

Question Type: MultipleChoice

In the Huawei OceanStor V3 storage system, which of the following descriptions about SmartThin LUN is correct?

Options:

- A- When creating a thin LUN, it cannot be allocated a larger capacity than the available free space in the storage pool
- B- Thin LUN cannot be converted into Thick LUN
- C- When creating a thin LUN, the initial allocated capacity can be used without specifying
- D- The types of LUNs on a storage pool must be the same, either all are Thin LUNs or all are Thick LUNs

Answer:

C

Explanation:

Resolution: When Thin LUN is created, an initial allocated capacity can be set. After the creation is complete, the storage pool Pool only

The initial capacity is allocated, and the remaining space is still placed in the storage pool. When the thin LUN has been allocated

When the storage space usage reaches the threshold, the storage system will allocate a certain quota from the pool to the thin LUN. in this way

Repeat until the full capacity of the Thin LUN is initially set. Therefore, it has a high storage space utilization rate.

Question 3

Question Type: MultipleChoice

A company uses the CIFS protocol for file sharing, and uses the Homedir sharing method according to the security policy.

All users access the folder and write space.

Options:

A- TRUE

B- FALSE

Answer:

A

Explanation:

Analysis: CIFS is for Windows

Question 4

Question Type: MultipleChoice

The initial capacity allocation strategy of Huawei OceanStor V3 storage system defaults to automatic allocation.

Options:

A- TRUE

B- FALSE

Answer:

A

Question 5

Question Type: MultipleChoice

Is the following statement correct?

Options:

A- After using RAID 5 with 6 200G hard drives, the available space is 1200G

B- NL SAS/SATA hard disks are suitable for data protection using RAID 6, and SAS hard disks are suitable for data protection using RAID 5.

According to protection

C- S2200 V3 can support SSD. SAS, SATA hard drives

D- OceanStor V3 series products support RAID 0/RAID 1/RAID 5/RAID 10, but not RAID 6

Answer:

B

Explanation:

Resolution: The hard disk types supported by OceanStor 2200 V3 are: SAS, NL-SAS and SSD. and SATA is not supported. OceanStor V3 series product support

Question 6

Question Type: MultipleChoice

The amount of data in an incremental backup is larger than that in a differential backup.

Options:

A- TRUE

B- FALSE

Answer:

B

Question 7

Question Type: MultipleChoice

Which of the following operations does a small employee A of a bank need to do in the first maintenance project of data center storage?

Options:

A- Check Toolkit installation **B.** Check eService installation and configuration **C.** Check alarm policy configuration

A- AB

B- ABC

C- C

Answer:

B

Question 8

Question Type: MultipleChoice

Regarding the advantages of DAS, the following description is correct: (multiple choice)

Options:

- A- Deployment is simple
- B- Large initial investment
- C- Small network complexity
- D- The configuration is more complicated

Answer:

A, C

Question 9

Question Type: MultipleChoice

The cloud data center virtualizes storage, computing and network resources, and provides a virtualization platform for users to use.

Options:

A- TRUE

B- FALSE

Answer:

A

Question 10

Question Type: MultipleChoice

There are two descriptions about fiber switches below, the correct ones are:

Description 1: A port can be in multiple zones.

Description 2: A switch can have multiple zones.

Options:

A- description 1 and description 2 are correct

B- Description 1 pair, description 2 wrong

C- description 1 wrong, description 2 right

D- description 1 and description 2 are wrong

Answer:

A

Question 11

Question Type: MultipleChoice

Snapshots used for backup purposes should be set to read-only to prevent modification by other applications and affect the backup data consistency.

Options:

A- TRUE

B- FALSE

Answer:

A
