# Question 1

---

**Question Type:** MultipleChoice

---

VLAN port types include: (Choose three)

## Options:

---

- A- Access Port
- B- Trunk ports
- C- Hybrid port
- D- Ethernet port

## Answer:

---

A, B, C

# Question 2

---

**Question Type:** MultipleChoice

---

SSL is a security protocol that provides a secure connection for TCP-based application layer protocol, SSL between the TCP / IP protocol stack between the fourth and fifth layers. SSL provides secure connections for HTTP (Hypertext Transfer Protocol) protocol.

**Options:**

---

**A-** True

**B-** False

**Answer:**

---

A

## Question 3

---

**Question Type:** MultipleChoice

---

Which statement is correct?

**Options:**

---

- A-** Latency refers to the first bit of the packet enters the firewall to the first bit of the output firewall interval indicator, is an ideal situation for measuring the speed of processing data firewall
- B-** Refers to the maximum number of concurrent connections per second, the new set up through the firewall can be a complete TCP / UDP connection
- C-** If the USG (Eudemon) transparent firewall mode to work, just like the place in the network bridges (bridge) the same access to the USG (Eudemon) firewall device without the need to modify the original structure and configuration
- D-** When USG (Eudemon) firewall using routing mode, no ACL packet filtering, ASPF dynamic filtering, NAT conversion functions

**Answer:**

---

C

## Question 4

---

**Question Type: MultipleChoice**

---

What are the main cryptographic services security capabilities? (Choose three)

**Options:**

---

A- Confidentiality

B- Integrity

C- Repudiation

D- Scalability

**Answer:**

---

A, B, C

## Question 5

---

**Question Type:** MultipleChoice

---

What are the common hashing algorithms? (Choose two)

**Options:**

---

A- DES

B- AES

C- MD5

D- SHA-1

**Answer:**

---

C, D

## Question 6

---

**Question Type: MultipleChoice**

---

IP-Link auto- detection results can only be applied to detect double hot backup.

**Options:**

---

A- True

B- False

**Answer:**

---

B

## Question 7

---

**Question Type:** MultipleChoice

---

Check whether the L2TP tunnel has been established command is:

**Options:**

---

- A- display l2tp tunnel
- B- display lac tunnel
- C- display lns tunnel
- D- display tunnel

**Answer:**

---

A

## Question 8

---

**Question Type:** MultipleChoice

---

Encryption refers to the cipher text into the plaintext message to be transmitted in the network.

**Options:**

---

**A-** True

**B-** False

**Answer:**

---

B

## Question 9

---

**Question Type: MultipleChoice**

---

In the Internet world, the protocol that you can do the following transport protocols, and can do the passenger protocol:

**Options:**

---

- A- IP
- B- GRE
- C- IPX
- D- TCP

**Answer:**

---

A

## Question 10

---

**Question Type:** MultipleChoice

---

In the TSM system supports access control devices, which of the following devices do not support access control terminal visits functions?

**Options:**

---

- A- Hardware SACG (Hardware Security Access Control Gateway)
- B- 802.1X

C- Software SACG (host firewall)

D- ARP control

**Answer:**

---

A
