Question 1

Question Type: MultipleChoice

Companies should develop a procedure that includes steps for dealing with these visits. The procedure will deal with items that should be covered prior to, during, and after the inspection. Plant management should have clear guidance on:

Options:

- A- Limits of authority of supervisors and workers
- B- Objective and scope of the inspection
- C- Plant personnel who will accompany the inspector
- D- Illegal counsel participation

Answer:

B, C

Question 2

Question Type: MultipleChoice

Accordingly, many multinational companies have developed global secondary containment standards for hazardous waste, and material containers and tanks. These standards are fairly straightforward and address:

Options:

- A- Uniqueness of program
- B- Containment integrity (e.g., no cracks or open sumps)
- C- Capacity
- D- B and C both

Answer:

D

Question 3

Question Type: MultipleChoice

A good audit protocol:

Options:

- A-** Should provide the auditor with an abstract or overview of the key federal, state, and local regulations and requirements relevant to each compliance area at the facility being audited
- B-** Should highlight those key definitions that help the auditor conduct the audit without having to refer to the full text copies of the applicable regulations. The importance of definitions in verifying regulatory compliance areas cannot be over-emphasized.
- C-** Should provide an opportunity to verify that internal company environmental management procedures are understood and adhered to by plant staff
- D-** None of these

Answer:

A, B, C

Question 4

Question Type: MultipleChoice

The submittals, concise reports on the status of the audit program, should contain the following information at a minimum:

Options:

- A- Trends in the number or percentage of repeat findings
- B- Trends in the types of noncompliance items to identify potential corporate wide issues
- C- Development and implementation of an auditor evaluation program
- D- Both A and B

Answer:

D

Question 5

Question Type: MultipleChoice

Any management program should be evaluated on a basis. Each year, the audit program manager should report to senior management on the successes and failures of the program.

Options:

- A- Term of business
- B- Periodic

C- Regular

D- Both A and C

Answer:

B

Question 6

Question Type: MultipleChoice

There are as many examples of companies with separate environmental audit programs as there are with integrated EH&S audit programs. Certain laws such as the Toxic Substances Control Act (TSCA) are:

Options:

A- Easily audited at the facility level

B- Not easily audited at the facility level

C- Easily audited at the operational level

D- Not easily audited at the top management level

Answer:

A

Question 7

Question Type: MultipleChoice

Any audit program must have some bounds under which it operates. Someone must decide which facilities are audited, what they are audited against, and what type of audits will be conducted. In general, audit programs will be responsible for auditing the facility types, for instance:

Options:

- A- Real estate owned
- B- Warehouses and distribution centers on rent
- C- Joint ventures with majority ownership and operational responsibility
- D- A and C both

Answer:

D
