Answer:

Question 7

Question Type: MultipleChoice

Your company plans to migrate to Azure. The company has several departments. All the Azure resources used by each department will be managed by a department administrator.

You need to recommend an Azure deployment that provides the ability to segment Azure for the departments.

The solution must minimize administrative effort.

What should you include in the recommendation?

Options:

- A) multiple subscriptions
- B) multiple Azure Active Directory (Azure AD) directories
- C) multiple regions
- D) multiple resource groups

Answer:

A

Question 8

Question Type: MultipleChoice

What is guaranteed in an Azure Service Level Agreement (SLA)?

Options:

- A) uptime
- B) feature availability
- C) bandwidth
- D) performance

Answer:

B

Question 9

Question Type: MultipleChoice

This question requires that you underlined text to determine if it is correct.

You have an Azure network named VNET1 in a resource group named RG1.

You assign an Azure policy specifying that virtual networks are not an allowed resource type in RG1. VNET1 is deleted automatically

Instructions: Review the underlined text. If it makes the statement correct, select "No change is needed." If the statement is incorrect, select the answer choice that makes the statement correct.

Options:

- A) No change is needed.
- B) is moved automatically to another resource group
- C) continues to function normally
- D) is now a read-only object

Answer:

B

Question 10

Question Type: MultipleChoice

This question requires that you evaluate the underlined text to determine if it is correct.

Azure policies provide a common platform for deploying objects to a cloud infrastructure and for implementing consistency across the Azure environment.

Instructions: Review the underlined text. If it makes the statement correct, select "No change is needed". If the statement is incorrect, select the answer choice that makes the statement correct.

Options:

- A) No change is needed
- B) Resource groups provide
- C) Azure Resource Manager provides
- D) Management groups provide

Answer:

C

Explanation:

Section: Understand Core Azure Services

Question 11

Question Type: MultipleChoice

This question requires that you evaluate the underlined text to determine if it is correct.

Your company implements Azure policies to automatically add a watermark to Microsoft Word documents that contain credit card information.

Instructions: Review the underlined text. If it makes the statement correct, select "No change is needed". If the statement is incorrect, select the answer choice that makes the statement correct.

Options:

- A) No change is needed.
- B) DDoS protection

C) Azure Information Protection

D) Azure Active Directory (Azure AD) Identity Protection

Answer:

C
