Question 1

Question Type: MultipleChoice

You need to configure the system for plastic operations.

Which two parts should be manually reported as finished? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

Options:

A- unmachined plastic pieces

B- mold tooling

C- machined plastic pieces

D- excess plastic

Answer:

A, C

Explanation:

This is a case study. Case studies are not timed separately. You can use as much exam time as you would like to complete each case. However, there may be additional case studies and sections on this exam. You must manage your time to ensure that you are able to complete all questions included on this exam in the time provided.

To answer the questions included in a case study, you will need to reference information that is provided in the case study. Case studies might contain exhibits and other resources that provide more information about the scenario that is described in the case study. Each question is independent of the other question on this case study.

At the end of this case study, a review screen will appear. This screen allows you to review your answers and to make changes before you move to the next section of the exam. After you begin a new section, you cannot return to this section.

Question 2

Question Type: MultipleChoice

You need to set up the metal production route and BOM.

Which three actions should you perform? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

Options:

- A- Set the operation route type as Standard.
- B- Set the input warehouse on the resource to the vendor warehouse.
- C- Set the operation route type as Vendor.
- D- Set all BOM lines warehouse to the production warehouse.
- E- Set all the BOM lines to resource consumption.

Answer:

B, C, D

Question 3

Question Type: MultipleChoice

You need to set up the state control for sales of motorcycles.

Which two actions should you perform? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

Options:

- A-** Create an inclusive restricted product list for United States. Do not add the motorcycle part to the list.
- B-** Create an inclusive restricted product list for United States and add the motorcycle part to the list.
- C-** Create an exclusive restricted product list for California and add the motorcycle part to the list.
- D-** Create an exclusive restricted product list for Missouri and add the motorcycle part to the list.

Answer:

B, C

Explanation:

Question 6

Question Type: OrderList

You need to set up the system to calculate the overhead rates automatically for production.

Which four actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

Actions

Define the basis for calculating costs as absorption.

Create overhead calculation node for materials as surcharge and labor as rate for setup time.

Create overhead calculation node for materials as input unit based and labor as rate for setup time.

Create cost groups.

Associate cost groups to items and cost categories.

Define the basis for calculating costs as surcharge.

Create price total and cost group nodes on costing sheet.

Associate cost groups to items and resources.

Answer Area

Answer:

Associate cost groups to items and resources.

Create

Question 7

Question Type: MultipleChoice

You need to set up the configuration model to price the motorcycles correctly. What should you do?

Options:

- A- Set Order type in price model to Sales Order and Pricing method in Version to Attribute based
- B- Set Order type in price model to Sales Order and Pricing method in Version to Cost based.
- C- Set Order type in price model to Sales Quotation and Pricing method in Version to Attribute based.
- D- Set Order type in price model to Sales Quotation and Pricing method in Version to Cost based

Answer:

A

Question 8

Question Type: Hotspot

You need to modify the production order defaults for the manufacturing execution production order Start process.

What should you do? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Answer Area

Production order defaults
