Question 1

Question Type: DragDrop

You need to meet the substitution requirements for User4 and User5.

What must you configure? To answer, drag the appropriate configurations to the correct substitution requirements. Each configuration may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

The screenshot shows a software interface with two main panes. The left pane is titled "Configurations" and contains a list of items: "To-date, From-date", "Plan group, priority ty", and "Open production order, add to BOM IM". The right pane is titled "Answer Area" and is divided into two columns: "Substitution requirement" and "Configuration". Under "Substitution requirement", there are two entries: "User4" and "User5". Under "Configuration", there are two empty rectangular boxes. A blue box highlights the "Plan group, priority ty" item in the "Configurations" list, and a blue box highlights the top configuration box for "User4" in the "Answer Area". A blue line indicates a drag action from the highlighted configuration box to the "User4" requirement. The word "Answer:" is overlaid in blue text on the left side of the interface.

Question 2

Question Type: Hotspot

You need to configure the requirements for metal fabrication equipment maintenance. What must you configure? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Answer Area

Requirement

Maintenance technician assignment.

Configuration

Assign a functional location to a worker.
Assign a functional location to a worker.
Create a site financial dimension.
Set limit to responsible to no.
Set limit to responsible to yes.

Ensure maintenance for warranty schedule.

Time
Time
Counter
Capacity load

Answer:

Question 3

Question Type: MultipleChoice

You must ensure that the firepit product is available for sale. How should the product be released?

Options:

- A- Release the engineering product version and then assign the route.
- B- Connect the BOM to an engineering product version before release.
- C- Connect a route to an engineering version before release.
- D- Release the engineering product version and then assign BOM.

Answer:

B

Question 4

Question Type: MultipleChoice

You need to enable the features and configuration keys for the firepits.

Which two features should you enable? Each answer presents part of the solution.

NOTE: Each correct selection is worth one point

Options:

- A- Engineering attributes
- B- Change management for process manufacturing
- C- Engineering product variants
- D- Engineering change management
- E- Production floor execution management

Answer:

A, D

Question 5

Question Type: Hotspot

You need to meet the needs for the large teakwood furniture order.

What must you configure? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Answer Area

	Requirement	Feature
Answer:	Create production orders for User6	<input type="checkbox"/> Wave template <input type="checkbox"/> Release to warehouse <input checked="" type="checkbox"/> Wave template <input type="checkbox"/> Work template
	Production input location	<input type="checkbox"/> Fixed location <input type="checkbox"/> Resource group <input type="checkbox"/> Work template <input checked="" type="checkbox"/> Fixed location

Question 6

Question Type: MultipleChoice

You need to determine the sales price for a new limited-edition bicycle for the summer season.

What should you do?

Options:

- A- Run inventory close for the BOM items for the limited-edition bicycle.
- B- Create the production order for the limited-edition bicycle and click estimate.
- C- Run the category price rules for the limited-edition bicycle using a cost-plus calculation.
- D- Run the pricing simulator for the limited-edition bicycle for a quantity of one.

Answer:

B

Explanation:

Fabrikam, Inc. is a discrete manufacturer of outdoor patio furniture. The company originated as a sole owner working from a home garage, then moved into a commercial storage space, and later into a full manufacturing facility. The company operates as two operating legal entities, one in the United States and the other in Mexico.

As the company grew, the existing software systems failed to grow with it. This meant that financial reporting was managed in an outdated accounting system; raw materials planning, production, and inventory control were managed in another system; and cost calculations were tracked in multiple spreadsheets managed by analysts.

Question 7

Question Type: MultipleChoice

You need to configure the bicycles' production resource.

Which option should you use?

Options:

- A-** Exclusive capacity set to yes and enter a Batch capacity.
- B-** Exclusive capacity set to no and infinite capacity.
- C-** Exclusive capacity set to yes and infinite capacity.
- D-** Exclusive capacity set to no and enter a Batch capacity.

Answer:

C

Explanation:

<https://docs.microsoft.com/en-us/dynamics365/supply-chain/production-control/operations-resources>

Question 8

Question Type: MultipleChoice

You need to create the production orders for standard model bicycles.

Which method should you use?

Options:

- A- Sales order line
- B- Master planning execution
- C- Supply schedule form
- D- Released item
- E- All production orders form

Answer:

C

Explanation:

<https://docs.microsoft.com/en-us/dynamics365/supply-chain/master-planning/supply-schedule>

Question 9

Question Type: OrderList

You need to create the new summer limited edition bicycle in Dynamics 365 in preparation for taking orders.

Which four actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

Actions

Create a product for all the bicycles

Release the product to the three legal entities

Release the product to the two legal entities

Release the product variants to the selected legal entities

Create a product for each bicycle combination

Create the BOM

Define the configuration routes and rules

Answer Area

Answer:

Create the BOM for the product.

Explanation:

<https://docs.microsoft.com/en-us/dynamics365/supply-chain/pim/dimension-based-product-configuration>
