Question 1

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear on the review screen.

A company uses Dynamics 365 Finance.

Service updates have become costly over time, taking resources away from their daily jobs to test against updates which include both functional testing and performance tuning. The company has a medium risk tolerance.

You need to define a testing strategy.

Solution: Apply a prioritized testing strategy to focus on mission critical processes.

Does the solution meet the goal?

Options:

A- Yes

B- No

Answer:

A

Question 2

Question Type: MultipleChoice

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear on the review screen.

A company uses Dynamics 365 Finance.

Service updates have become costly over time, taking resources away from their daily jobs to test against updates which include both functional testing and performance tuning. The company has a medium risk tolerance.

You need to define a testing strategy.

Solution: Implement automated regression testing processes.

Does the solution meet the goal?

Options:

A- Yes

B- No

Answer:

A

Question 3

Question Type: MultipleChoice

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear on the review screen.

A company uses Dynamics 365 Finance.

Service updates have become costly over time, taking resources away from their daily jobs to test against updates which include both functional testing and performance tuning. The company has a medium risk tolerance.

You need to define a testing strategy.

Solution: Apply a comprehensive end to end testing business processes.

Does the solution meet the goal?

Options:

A- Yes

B- No

Answer:

B

Question 4

Question Type: **MultipleChoice**

Your company has a Microsoft has a Microsoft 365 subscription.

You need to prevent temporary employees from using the chat feature in Microsoft Teams.

Solution: From the Microsoft Teams admin center, you modify the External access settings.

Does this meet the goal?

Options:

A- Yes

B- No

Answer:

B

Explanation:

External access settings in the Microsoft Teams admin center control the ability of users to communicate with users from other domains. This does not prevent temporary employees from using the chat feature internally within the organization. To achieve the goal, a messaging policy that restricts chat usage for specific users needs to be implemented.

Question 5

Your company has a Microsoft has a Microsoft 365 subscription.

You need to prevent temporary employees from using the chat feature in Microsoft Teams.

Solution: From the Microsoft Entra admin center, you modify the External collaboration settings.

Does this meet the goal?

Options:

A- Yes

B- No

Answer:

B

Explanation:

Modifying External collaboration settings in Microsoft Entra (formerly Azure Active Directory) affects the ability of users to collaborate with external users. This setting does not impact internal features such as the chat functionality within Teams for internal users. To restrict chat for temporary employees, you should configure Teams messaging policies instead.

Question 6

Question Type: **MultipleChoice**

Your company has a Microsoft has a Microsoft 365 subscription.

You need to prevent temporary employees from using the chat feature in Microsoft Teams.

Solution: You create an app permission policy and assign the policy to the users.

Does this meet the goal?

Options:

A- Yes

B- No

Answer:

B

Explanation:

An app permission policy in Microsoft Teams is used to control which apps are available to users. This policy allows you to block or allow certain apps, but it does not specifically control the chat feature within Teams. For controlling chat capabilities, a messaging policy would be more appropriate.

Question 7

Question Type: MultipleChoice

Your company has a Microsoft has a Microsoft 365 subscription.

You need to prevent temporary employees from using the chat feature in Microsoft Teams.

Solution: You create a meeting policy and assign the policy to the users.

Does this meet the goal?

Options:

A- Yes

B- No

Answer:

B

Explanation:

Creating a meeting policy in Microsoft Teams controls the features available during meetings, such as who can bypass the lobby or whether recording is allowed, but it does not control the ability to use chat outside of meetings. To prevent temporary employees from using the chat feature, a messaging policy would need to be configured instead.

Question 8

Question Type: **MultipleChoice**

A company is upgrading its existing operational software to an enterprise resource planning (ERP) system and is evaluating Dynamics 365 Finance. The company is setup with the following:

* One parent company based in the US and three fully owned subsidiaries that use US dollars (USD) for the accounting currency.

* Two partially owned subsidiaries that use Canadian dollars (CAD) for the accounting currency.

* Distribution facilities in both Canada and the US.

* Project managers travel to customer locations.

* Intercompany sales are transacted between the US subsidiaries.

* E-commerce business-to-business (B2B) sales.

* A call center that receives customer orders.

The company has the following requirements:

* Must provide an asset maintenance capability.

* Must provide a purchase requisition approval process.

* Must provide an invoice approval process.

You need to identify which functional component of Dynamics 365 Finance to implement.

Which functional component should you use?

Options:

A- Call center sales

B- Site and warehouse setup

C- Invoice approval workflow

D- Purchase requisition workflow

Answer:

B

Question 9

Question Type: DragDrop

A company is implementing Dynamics 365 Supply Chain Management. A user reports a bug in the test environment.

You need to determine whether anyone has reported the bug to Microsoft.

Which tool should you use? To answer, drag the appropriate tools to the correct requirements. Each tool may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Tools

⠿ Issue search	
⠿ Active issues	
⠿ Submit incident	
⠿ Severity A support	

Answer Area

Requirement	Tool
Determine if the bug was reported by a user within your Lifecycle Services (LCS) projects.	
Determine if the bug was reported by a user outside of your Lifecycle Services (LCS) projects.	

Question 10

Question Type: Hotspot

A company uses Dynamics 365 Finance and Supply Chain Management. Accounting is completing month end close tasks and reports two issues:

* A user cannot recall the name of a form used to close inventory.

* A new error message appears when trying to enter data in a field for all users. The users can click past the error and continue working.

You need to identify the correct tool to support the issues.

Which tool should you use for each issue? To answer, select the appropriate options in the answer are

a. NOTE: Each correct selection is worth one point.

Support tools

Answer:

Issue	Tool
User cannot recall name of form.	Help button ▼
	Usage data
