I is effective against gram-positive cocci.

II is a macrolide antibiotic.

III can increase gastrointestinal tract motility.

**Options:**

---

**A-** I only

**B-** III only

**C-** I and II only

**D-** II and III only

**E-** I, II and III

**Answer:**

---

E

## Question 4

---

**Question Type:** MultipleChoice

---

The Latin abbreviation for "before meals" is:

**Options:**

---

A- ac

B- aa

C- pc

D- ic

E- cc

**Answer:**

---

A

## Question 5

---

**Question Type: MultipleChoice**

---

Which financial statement could be used to determine the total value of prescription drug sales for a pharmacy during the course of a year?

**Options:**

---

**Answer:**

---

D

## Question 6

---

**Question Type: MultipleChoice**

---

When evaluating patients with angina for possible development of nitrate tolerance, true statements include:

I tolerance is rarely associated with isosorbide dinitrate.

II tolerance does not occur in patients who are concurrently on

metoprolol.

III tolerance is dependent upon the administration schedule of nitrate medication.

**Options:**

---

A- I only

B- III only

C- I and II only

D- II and III only

E- I, II and III

**Answer:**

---

B

## Question 7

---

**Question Type:** MultipleChoice

---

In deciding what drugs are appropriate for its formulary, the hospital must consider a drug's efficacy, associated workload, and acquisition cost. Several new antifungal IV drugs (drug A, drug B, drug C, and drug D), all with equal efficacy, have recently become available.

Currently the hospital stocks drug E, which has been available for several years. Data for the medications is as follows:

Drug	Cost/Day	Dosing Frequency	Treatment Duration (days)
A	\$2.50	QID	14
B	\$2.25	once daily	14
C	\$5.00	BID	7
D	\$2.25	BID	7
E	\$2.25	QID	7

The most appropriate choice for the hospital is:

**Options:**

---

A- Drug A

B- Drug B

C- Drug C

D- Drug D

E- Drug E

**Answer:**

---

D

## Question 8

---

**Question Type: MultipleChoice**

---

Side effects that may be expected to occur from the administration of oral contraceptives include all of the following, EXCEPT:

**Options:**

---

- A- fluid retention
- B- headache
