E- Deploying the JDE database on Database Cloud Service (DBCS) is supported.

Answer:

D, E

Question 7

Question Type: MultipleChoice

According to E1 certification, the E1 HTML server requires JDK 1.7, and the BSSV and E1 AIS servers are capable of running JDk1.7 and 1.8.

as E1 CNC Administrator, what is your recommendation for the JDK version?

Options:

A- Install JDK 1.7 across all E1 components

B- Install JDK 1.8 across all E1 components

C- Install JDIK1.5 across all E1 components

D- Install JDK 1.8 on E1 HTML and 1.7 on E1 BSSV and E1 AIS.

Answer:

B

Question 8

Question Type: MultipleChoice

For which two User Defined Objects can you use Content Security?

Options:

A- COMPOSITE

B- FORMATS

C- QUERY

D- ONEVIEW

E- CAFE1

Answer:

A, E

Question 9

Question Type: **MultipleChoice**

Which two directories are automatically backed up in

a. jar file while upgrading the Deployment Server Tools Release by using Server Manager?

Options:

A- \ thirdparty

B- \ oneworld client install

C- \ system

D- \ systemcomp

E- \ JDK

Answer:

B, C

Explanation:

The tools release download replaces the System directory and its subdirectories on the Deployment Server. Therefore, before you begin you should make a backup of the existing directory structure. On the Deployment Server, make a copy of these directories: /System /Systemcomp /OneWorld Client Install
