Question 1

Question Type: MultipleChoice

Identify the three true statements about I/C activity. (Choose three.)

Options:

- A- Intercompany transactions are eliminated at the first common parent.
- B- Intercompany transactions can be processed for both open and closed periods.
- C- Matching tolerances can be set by percent, dollar amount, or both.
- D- Eliminations are processed during both Calculation and Consolidation processes.
- E- I/C reports are available to display transactions by status-Matched, Mismatched, or Unmatched.

Answer:

A, C, E

Question 2

Question Type: MultipleChoice

You need to migrate an FM application in version 11 from development to production. Your environment has two instances of Shared Services, one for development and one for production. Identify the two true statements about using Life Cycle Management to perform the application migration from development to production within this environment. (Choose two.)

Options:

- A-** You can select specific objects to migrate or all objects to migrate.
- B-** Migrating applications from development to production in disconnected environments, where there are two instances of Shared Services, is not supported.
- C-** Life Cycle Management will migrate both objects and data.
- D-** Life Cycle Management will generate an XML file that can be modified and used for importing to target applications.
- E-** The only role necessary to perform LCM activities is Application Administrator.

Answer:

A, D

Question 3

Question Type: MultipleChoice

What are two effects of deploying an EPMA application? (Choose two.)

Options:

- A-** The EPMA metadata is extracted to a text file.
- B-** If enabled, it pushes the data to Essbase via Essbase Analytic Link for FM.
- C-** The EPMA application metadata is used to create an FM application on the FM server.
- D-** The application is sent out to a star schema for use by Essbase and other products.
- E-** When you redeploy an application, the application metadata is merged or replaced based on the changes made since the last deployment.

Answer:

C, E

Question 4

Question Type: MultipleChoice

Identify the purpose of using task lists.

Options:

- A- To upload user "to do" items to FM with due dates and alert dates
- B- To organize and group related tasks into a navigational aid for users
- C- To create lists of members with VB script
- D- To list tasks to be executed by the FM Server
- E- To define the review path for consolidation review

Answer:

B

Question 5
