Answer:

D, E

Question 5

Question Type: MultipleChoice

Your organization has two ERPs: PeopleSoft (PS) and SAP. Each ERP has its own chart of accounts. Each chart of accounts is mapped to a consolidated chart of accounts. The Finance department maintains the consolidated account hierarchy, For both the SAP and PS account properties, users should be able to select from a drop-down list the correct accounts that should be mapped to the consolidated account. Many SAP or PS accounts could be mapped to a single consolidated account.

What property type should you set for the SAP Account Property and PS Account Property, assuming that you have built the SAP and PS chart of account hierarchies in DRM?

Options:

- A- Lookup
- B- List
- C- AscNodes
- D- AscNode
- E- RangeList

Answer:

B
