Question 1

Question Type: MultipleChoice

A customer is struggling with organizing and managing the immense amount of data generated by the business. They have been told about several possible solutions that SAP BTP offers; however, they are confused about which solutions they should use. Their data is highly structured and includes customers, sales orders, and purchase orders. The data needs to be stored for both transactional and reporting purposes in a vector database. The client prefers to use the latest SAP solutions.

Which of the following SAP BTP solutions would you recommend?

Options:

A- SAP HANA Cloud, data lake

B- SAP Datasphere

C- SAP HANA Cloud

D- SAP Analytics Cloud

Answer:

C

Question 2

Question Type: MultipleChoice

Applications on a customer's Marketing subaccount continuously crash due to insufficient memory.

At the global account level, what can you use to allocate more memory to the Marketing subaccount?

Options:

A- Quota

B- Service Assignment

C- Entity Assignment

D- Entitlement

Answer:

A

Question 3

Question Type: MultipleChoice

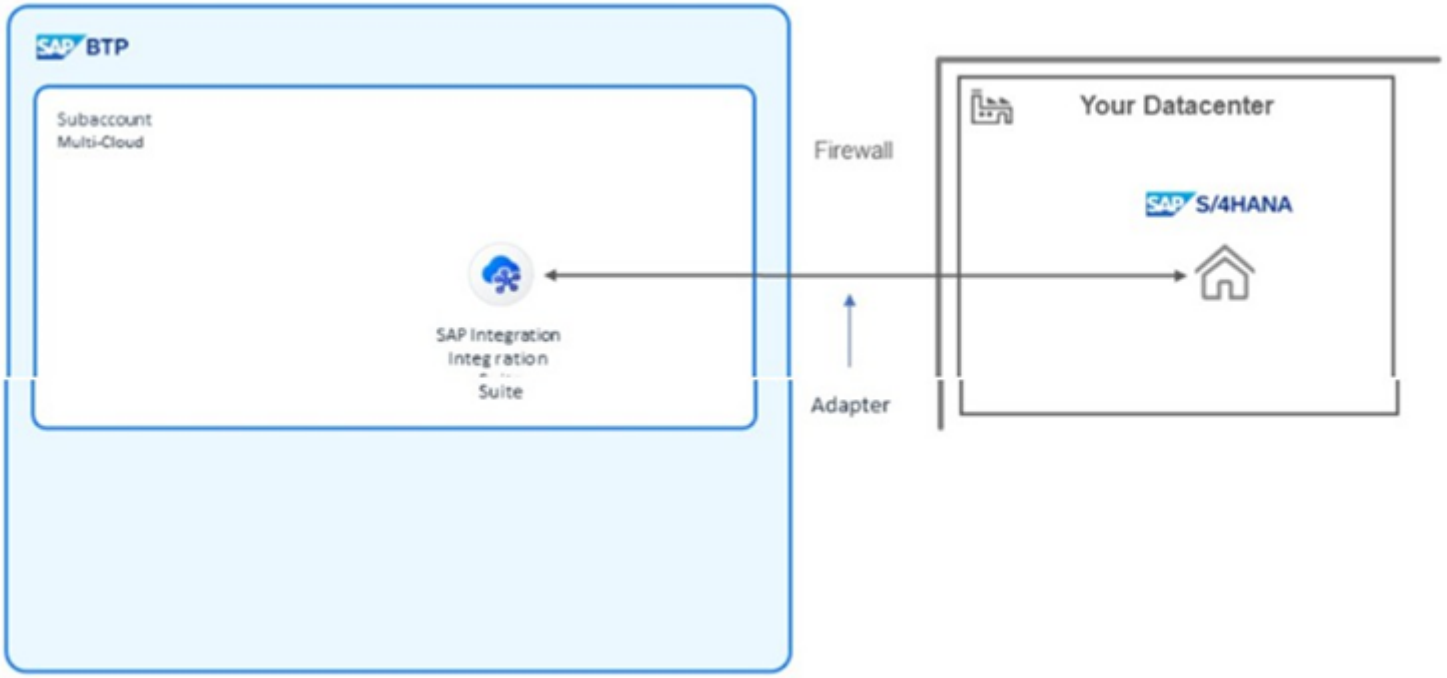
Given the following use case parameters:

* End users will need to restart messages in SAP S/4HANA using SAP AIF

* End users will need to change message payload in SAP S/4HANA using SAP AIF

* Clean core integration principles are to be applied.

Which of the following could be used as an "adapter" in the attached diagram? Note: There are 2 correct answers to this question.



Options:

A- SOAP

B- ODATA

C- IDOC

D- HTTP

Answer:

A, C

Question 4

Question Type: **MultipleChoice**

Company XYZ, a global firm with 25K+ employees across the geographic locations Europe (headquarters), the USA (manufacturing), and South America (procurement), is migrating to SAP S/4HANA using SAP BTP. Each geographic location has dedicated IT staff managing access, authorizations, and SAP BTP resource quotas. For cost control, the company aims to analyze and optimize the usage and cost of SAP BTP resources both globally and by geographic location, intending to enhance their SAP BTP Account model structure.

Which of the following SAP BTP account models are appropriate? Note: There are 2 correct answers to this question.

Options:

A- One global account for each business function with a corresponding subaccount for that region

B- One global account for each business function with a corresponding directory for that region

C- One global account with one directory for each region

D- One global account with one subaccount for each region

Answer:

C, D

Question 5

Question Type: MultipleChoice

A company is struggling with organizing and managing their dat

a. Their data is distributed across many databases and datastores. The data structures are also very inconsistent. They need harmonized aggregated data to be used as the basis of advanced highly summarized reports for senior executives. They prefer to use the latest SAP solutions.

Which of the following solutions would you recommend?

Options:

A- SAP Datasphere

B- SAP HANA Cloud

C- SAP Analytics Cloud

D- SAP HANA Cloud, data lake

Answer:

A

Question 6
